

SMG FIAMM

What is Fiamm smg1200?

SMG1200 FIAMM SMG1200 Maintenance-Free Cyclic GEL Cell Battery(2V 1200Ah) Key Features

Product Description FIAMM is a leading global manufacturer of industrial batteries and offers a wide selection of products designed to ensure a continuous power supply for a variety of applications.

What is Fiamm battery?

FIAMM is a leading global manufacturer of industrial batteries and offers a wide selection of products designed to ensure a continuous power supply for a variety of applications. With a tubular die-cast positive grid, the SMG battery series is designed for applications where performance...

What is a SMG 2V?

The SMG 2V range can be installed horizontally in dedicated racks which save installation valuable space and is eco-friendly with all components fully recyclable at the end of life. The SMG with tubular die casted positive grid is a range designed for applications where performance and operating conditions are critical.

What is the SMG range?

The SMG range is made up of 2V cells and conforms to international OPZV standards DIN 40742 norm. They are constructed to provide a high level of robustness for applications where charge-discharge cycles need to operate at the maximum levels of reliability.

Can Fiamm energy technology change or revise this publication?

FIAMM Energy Technology reserves the right to change or revise without notice any information or detail given in this publication
