

Sloped Roof Compact Mounting System

What types of roofs can be mounted on a compactpitch roof?

The COMPACTPITCH family is characterized by the many mounting options for tile, plain tile, corrugated sheet, trapezoidal sheet and sandwich sheet roofs. Many components can be combined with each other, allowing for a wide range of options, such as mounting PV modules in portrait and landscape formats.

How does the toptile mount system work?

The TopTile Mount System features two mounting options that secure panels 4-7 inches above the tile surface, using stanchions with water-proof sealing washers and moldable flashing. Installers can choose either SunModo's patented deck mounting system when anchoring into deck or a rafter mounting system.

How do east-west roof mounts work?

East-west systems are installed just like south-facing ballasted roof mounts, except the systems are turned 90°; and panels butt-up to one another, giving the system a dual-tilt. More modules fit on a roof since there is less spacing between rows. Flat roof mounting systems come in a variety of makeups.

Are roof tech solar mounts self-sealing?

Roof Tech's solar mounts are self-sealing with engineered integrated AlphaSeal, creating a waterproof mounting system. Advantages: The rail-less RT-APEX is faster to install without the use of rails. It also provides less weight on your residential roof to uphold the structure's integrity.

What is a RT-mini II roof mount base?

The RT-MINI II is our most popular residential roof mount base featuring Roof Tech's Self-flashing AlphaSeal(TM) PV Mounting Technology. The RT-MINI II is designed to attach conventional rail mounting systems for any sloped roofs consisting of metal, EPDM, TPO, and asphalt. The RT-MINI II has more mounting

How do you mount an angled roof?

There are many mounting system options for these angled roofs, with the most common being railed, rail-less and shared rail. All of these systems require some type of penetration or anchoring into the roof, whether that's attaching to rafters or directly to the decking.
