

The Chinese domestic energy enterprises sense opportunity to play a role in the development of the smart energy industry, and are further promoting the platform carrier of the smart energy by focusing on the construction of an "energy ecosystem integrator" to build a customer-oriented, innovation-driven, comprehensive smart energy solutions that are clean, ...

The term "smart city" has recently been coined by several authors and research institutes and is being used by many more. In a nutshell, the smart city aims to solve or alleviate challenges caused by fast-growing urbanization and population growth, such as waste management, mobility, and energy supply, by maximizing productivity and optimizing resources.
