SolBank 1 0 CSI Solar

What is Canadian Solar Solbank?

Canadian Solar SolBank is a modular,flexible,dedicated,simp- le and cost-effective MWh-scale battery energy storage system. Multiple SolBank energy storage systems can be expanded in parallel to meet today's energy storage needs and prepare for the future' s requirements.

What is Solbank?

SolBank is a modular,flexible,and cost-effective MWh-scale battery energy storage system. Multiple SolBanks could be connected in parallel. SolBank is a modular,flexible,and cost-effective MWh-scale battery energy storage system. Multiple SolBanks could be connected in parallel.

What is a Solbank MWh-scale battery energy storage system?

SolBank is a modular,flexible,and cost-effectiveMWh-scale battery energy storage system. Multiple SolBanks could be connected in parallel. Advanced battery management with centralized control,helps optimize the balance of the battery. Max. Short Circuit Current

Who is CSI solar?

CSI Solar Co.,Ltd. is committed to providing high quality solar photovoltaic modules,solar energy and battery storage solu- tions to customers. The company was recognized as the No. 1 module supplier for quality and performance/price ratio in the IHS Module Customer Insight Survey.

Can multiple solbanks be connected in parallel?

Multiple SolBanks could be connected in parallel. SolBank 1.0 SolBank is a modular,flexible,and cost-effective MWh-scale battery energy storage system. Multiple SolBank

What is the maximum operating power of a Solbank?

The parameter value is the maximum operating power of a single SolBank. When two units are connected in parallel, the operating power of a single SolBank needs to be derated by 5%. The technical parameters contained in this technical data document may deviate slightly, and Canadian Solar does not guarantee that they are completely accurate.
