

Solar Panel Standing Seam Clamp for Metal Roof

What is a standing seam solar panel mounting system?

This standing seam metal roof solar panel mounting system features technical innovations proven on more than 350 MW of solar projects to simplify installation and reduce costs. The SnapNrack Series 500 Metal Roof Seam Clamp is a cost-optimized PV Mounting System for both residential and commercial metal roof mount installations.

What can I attach to a standing seam metal roof?

By using this site, you agree to abide by the Terms of Use. Attach almost anything to standing seam metal roof profiles with zero penetration using our S-5! brackets & clamps. See the standing seam roof clamps we offer!

What is a metal standing seam roof?

Metal standing seam products represent the "state-of-the-art" in roofing alternatives today, offering service life and dependability measured in decades. S-5! clamps complement these roofs by providing a dependable way to attach solar modules without jeopardizing the integrity of the roof system.

What is a SnapNRack metal roof seam clamp system?

This SnapNrack metal roof seam clamp system is for both residential and commercial solar panel metal roof mount installations without metal penetrations.

How do you install solar panels on a metal roof?

Attach solar panels and rails directly to standing seam metal roofs without drilling. The SnapNrack line of roof solar mounting systems is designed to reduce total installation costs.

Can solar panels be attached to a metal roof?

Attachment of solar panel system arrays on a metal roof has always been difficult and often the source of leaks and maintenance problems until S-5! clamps and brackets. Thanks to their patented round-point setscrews, S-5! clamps will not pierce the metal roof paneling or violate system warranties.

The S-5-HR ("H" for Hi-Rib) is designed to fit Steel & Tube concealed-fixed metal roof profiles. The S-5-HR attaches a wide range of rooftop accessories including solar arrays--penetration-free and is made from high-quality structural ...

This Solar Snap solar racking system has been specially designed for a precise fit primarily on t-panel style standing seam metal roofs. The solar mounting system clamps on to t-panel SSMR using AceClamp's patented push-pin A2-T non ...
