The Radiant Solar Tripod Systems enables the fastest solar installations in Australia thanks to: Get started with our simple systems calculator or call us on 07 3907 0924 for design advice on your next solar installation project. Download Brochure View our Application Documentation Watch Tripod Assembly Video

What is a solar tripod mounting system?

A solar tripod mounting system that can be adapted for different roof applications. A range of pre-assembled corrosion resistant ground mounting systems for use in green field projects. With well over 10 years experience, Radiant Australia offers unmatched customer service to our solar clients.

Does a radian work with a tripod?

My positional shooting always seems to need work and shooting from a tripod is no exception. The Radian, with the integral leveling head, makes it ridiculously easy. A handle projects under the head allowing for fast and precise adjustments without breaking your scope picture. Just twist to loosen, adjust, lock and fire!

Who is radiant Australia?

Radiant Australia is a Brisbane based supplier of high quality commercial and residential solar racking. Our customer tailored 'value for money' solutions use a high degree of pre-assembly. This makes it faster and easy-to-install and more profitable for your business. The key to the success of our innovative solar mounting systems is the design.
