

# **Stackable 48V 300Ah 15Kwh LiFePO4 Battery With Inverter All In One Energy Storage**

Does blue carbon have a LiFePO4 battery?

Upgrade your home's energy game with Blue Carbon's 48V 300Ah LiFePO4 Lithium Battery. Delivering a formidable 15kW of power, it's designed to meet the energy requirements of modern households. The Smart BMS technology optimizes energy usage and keeps your home powered reliably. Transform your home into a smart and energy-efficient oasis with

What are the features of a LiFePO4 inverter?

Supports EU/ US Standards Supports Single Phase/ Three Phase Built-in 10kw inverter. Built-in active balancer module+external physical switch. Built-in professional LiFePO4 temperature-sensitive Fire Extinguisher. 100% Grade A cells, Full Capacity. Sturdy Welding Technology. Four Wheels easy movement.

What is a 15kW battery?

This battery unleashes a commanding 15kW power capacity and stands as a cornerstone of renewable energy solutions. Combine multiple units for a staggering 15kW power capacity, providing an energy reservoir for even the most demanding applications.

What are the features of a LiFePO4?

Built-in active balancer module+external physical switch. Built-in professional LiFePO4 temperature-sensitive Fire Extinguisher. 100% Grade A cells, Full Capacity. Sturdy Welding Technology. Four Wheels easy movement. Auto-trip device to prevent electric shock. 6000+Cycles, 90% DOD, Built-In BMS, 10-year Lifetime 1.

How should a battery be stored?

o When not in use for a long time, the battery should be stored in a cool and dry place(<35°C, 30%~50% SOC, charge and discharge once every 3 months). o Do not place the battery in direct sunlight or a heat source. o Do not wear metal jewelry (such as rings, watches, accessories, etc.) when handling the battery unit.

BigBattery's 48V 15 kWh LiFePO4 KONG Elite battery is our best selling solar and off-grid solution. ... and a 900A-1500A peak discharge. If you need more, they can be connected in parallel or in series to get even energy storage and ...
