

Stacked Home Energy Storage

What is a stackable energy storage system?

Stackable Energy Storage Systems, or SESS, represent a cutting-edge paradigm in energy storage technology. At its core, SESS is a versatile and dynamic approach to accumulating electrical energy for later use. Unlike conventional energy storage systems that rely on monolithic designs, SESS adopts a modular concept.

What is a HomeGrid stack battery?

The HomeGrid Stack'd Series battery is the ultimate storage solution for residential and small commercial projects.

What is a residential energy storage system?

A residential energy storage system is a power system technology that enables households to store surplus energy produced from green energy sources like solar panels. This system beautifully bridges the gap between fluctuating energy demand and unreliable power supply, allowing the free flow of energy during the night or on cloudy days.

What are the advantages of a residential energy storage system?

Here are some of the primary advantages of having a residential energy storage system: 1. Enhanced Energy Security: A home energy storage unit can provide a backup power supply during outages, ensuring that homes remain powered without any interruptions.

How much does an energy storage system cost?

The cost of an energy storage system widely varies depending on the technology and scale, but to provide a general sense, the average cost for lithium-ion batteries, which are commonly used, has significantly decreased over the years. As of recent figures, the cost hovers around R2,470 per kilowatt-hour (kWh).

How much power does a Stack D system produce?

The Stack'd Series boasts an impressive output of up to 14.4 kW continuous power and a surge capacity of up to 24 kW for 10 seconds. The system's capacity ranges from 9.6 kWh to 38.4 kWh per Stack, with the ability to connect up to 15 units in parallel for a staggering total capacity of 576 kWh.

HomeGrid sells two lines of energy storage batteries that follow a "better-best" model: the Compact Series (better) and the Stack'd Series (best). Both are modular, allowing you to stack multiple batteries in a single ...
