

# Stone slab dining table can store electricity

Is a natural stone dining table a good investment?

A natural stone dining table is a timeless investment. Choose between gorgeous slabs of marble, granite and quartzite, and pair with any handcrafted base to create a unique statement piece that will last a lifetime.

Where can I buy a stone kitchen & dining table?

Shop Wayfair for all the best Stone Kitchen & Dining Tables. Enjoy Free Shipping on most stuff, even big stuff.

How much does a stone top table cost?

Although stone top tables are a beautiful dining room addition, purchasing them can be a costly endeavor. However, Ikea has a simple, quartz top table available for about \$700. This may still be a bit expensive, but it is more affordable than the options mentioned previously.

How much does a sintered stone dining table cost?

The Myko sintered stone dining table from Eternity Modern is \$3,049 and can offer a touch of warmth to a minimalist dining room. The straight but slightly beveled legs keep the design simple while the brown veining painted across the stone top can be used to warm up a space typically covered in shades of white. 9.

How do you design a stone topped dining room?

Designing a timeless yet elevated dining room can be accomplished in several ways, one of which is by introducing a stone-topped table. There are a variety of options available to accommodate different aesthetics, as well as different options for the legs to introduce texture, contrast, and interest.

How big should a stone dining table be?

In terms of length, the majority of slabs range between 2.5m-2.9m, but there are also some around the 3.5m mark. If you're looking for an extra large stone dining table, we can offer book-matched table tops: two mirror-image stone slabs set end to end. You can also expect about 20-30mm thickness depending on the slab.
