

TILT Solution Hopergy

What is tilt-leg system?

Front Leg Hopergy's TILT-LEG System is truly innovative. Length adjustment on front and rear legs makes the system extremely easy. Rear Leg Hopergy's TILT-LEG System allows solar panels to be installed safely and quickly adjusted within the angle ranges 10 to 15 degrees, 15 to 30 degrees and 30 to 60 degrees from the mounting.

Who is Hopergy?

Powered by innovative capability since its foundation, Hopergy focuses on researching, manufacturing, distribution and engineering of solar photovoltaic mounting products. Our solar PV solutions address the immediate requirements and needs of residential, corporate, government and utility scale applications worldwide.

What is Hopergy east west mounting system?

Hopergy East West Mounting System provides more stable and more consistent power throughout the day relative to south facing designs. It reduces the peak production spike at noon and widens the power duration into the morning and evening. The system is fully constructed from aluminum and designed specially to accommodate mainstream solar modules.

Why should you choose Hopergy?

customers. Hopergy is also partnering with a selected number of competent distributors and system integrators worldwide to explore and support the solar industry and most importantly to do our part in making this world a cleaner and safer place for future generations. Hopergy's Tin (Metal) Roof Mounting Solution is suitable for almost any
