

Titan Three Phase Hybrid Storage Inverter RECOM

What is a hybrid solar inverter?

Continuing the evolution is our Hybrid Series, with ORION single phase & TITAN three-phase inverters that allows homeowners to optimize solar energy production, usage and storage. Integrated Dual MPPT & spanning of 3.0-15kW, the series demonstrates remarkable efficiency, reaching up to 98%.

What are the different types of energy conversion inverters?

Enabling a future-ready energy ecosystem through intelligent management, our range of inverters redefine energy conversion presenting a spectrum of possibilities, starting with Helios Single Phase Single MPPT inverters ranging from 0.6 kW to 3.3 kW and extending to Apollo Dual MPPT inverters covering 2.5 kW to 6.0 kW.

What is RECOM power?

RECOM REPOWER delivers the largest zero feed-in photovoltaic project with a capacity of 1.2 MW in Alexandroupolis, Greece. Dean Solon, Renewables Industry Titan, Founder, CEO, & President of Create Energy, and Hamlet Tunyan, Co-Founder & CEO of RECOM, combine forces to launch "ReCreate" and build solar module and cell manufacturing in the USA.
