

Tubular GEL Battery Eastman

What are Eastman's tubular batteries?

Eastman's tubular batteries are manufactured with particular tubular positive high pressure die casted plates designed for longer battery life. They include a flooded battery design involving electrolytes and are all processed and ready to use.

Where can I buy a tubular battery?

Tubular Battery - Shop high-quality tubular battery with advanced technology and superior performance, ideal for homes, businesses, and solar power systems. Find our top-rated tubular batteries at Eastman Solution.

Why should you choose a gel battery?

Our tubular gel batteries, engineered for unrivaled reliability and performance. With gelled electrolyte technology, our batteries ensure consistent power delivery without stratification or PSOC failure. Maintenance-free valve regulation eliminates the need for water top-up, while antimony-free alloy guarantees low self-discharge.

Why should you choose a tall tubular battery?

Our tall tubular batteries embody robust design, boasting corrosion-resistant spines and spill-proof vent plugs, ensuring longevity and safety. With optimized charge acceptance, our batteries provide consistent backup power, excel in partial state of charge (PSOC) conditions, and prove ideal for demanding deep cyclic applications.
