

What is a pylontech up2500 battery?

The UP2500 is Pylontech's 24V,2.8kWh rack-mount lithium battery,ideal for use in battery backup systems for network and telecom security applications,as well as any system requiring 24V DC power,such as mobile RV applications. A single 24V battery is a superior option for balancing and cabling rather than creating a 24V bank from 12V batteries.

What is the up2500 equipment interface?

2.3 Equipment Interface Instruction This section details front panel of the interface functions. UP2500 Product Front Interface Power Switch Power Switch: turn ON/ OFF the battery standby, no power output. SOC light: 4 green LED show battery's current capacity. Alarm Alarm light: Y ELLow LED falshing or lighting to show battery has alarm.

How many modules can be connected to a up2500?

The communications for UP2500 can be paralleled up to 20 modulesper string (and cannot use the LV-HUB). Other models can connect up to 8 battery modules (see Pylontech data sheets),in those models when using more than 8 parallel units,some limitations,additional configuration or equipment (e.g. Pylontech LV-Hub) may apply.

What is up2500 battery management system?

and systems. UP2500 is especially suitable for application scene of high power,limited installation space,restricted load-bearing and long cycle life. UP2500 has built-in BMS battery management system,which can manage and monitor cells information including voltage,current and temperature.

Does up2500 a 01v00101 have a CANbus port?

1. Product &system compatibility 24V: UP2500 48V: US2000,US3000,US2000C,US3000C,US5000,US5000B,UP5000,Phantom-S,Force-L1 &L2 51.2V: Pelio-L,UF5000 *Note that UP2500 came in two versions,UP2500N A 01V00101 does not have a CANBUS port,and IS NOT supported by Victron.

How to ground up2500 modules?

Grounding cables use 10AWG yellow-green cables. UP2500 modules' grounding is based on metal directly touch between the module's surface (SGCC) and rack's surface. If uses normal rack,may need to remove the paint at the corresponding place. Or install a grounding cable to the grounding point of the modules.

La batería Pylontech UP2500 es una batería de iones de litio de alta calidad (LFP fosfato de hierro y litio) diseñada para uso en sistemas de energía solar fotovoltaica. Con una capacidad nominal de almacenamiento de 2840Wh y un ...
