

URE3KTL UR Energy

How does the UR3e robot arm function?

The UR3e robot arm doses the same amount of glue with constant and steady pressure along a narrowly defined path, and tightens screws with exact torque--time after time, day after day. The UR3e is built with the same proven collaborative technology as the larger Universal Robots UR5e and UR10e robot arms.

Is Ur-energy a speculative bet on uranium?

Ur-Energy (NYSE: URG) (TSX: URE:CA) is a speculative bet on uranium as it holds high productive assets in their projects Lost Creek and the Shirley Basin. With increasing uranium prices and nuclear capacity set to triple, I think that the long-term potential of this stock may lead to a \$1 billion company.
