Data centers dominate the current and forecasted load for Silicon Valley Power (SVP). According to their Integrated Resource Plan, that figure is expected to double by 2035. How is the utility preparing to handle that load? SVP says it is looking to energy storage and geothermal power to successfully manage the anticipated load. With one energy storage ...

On June 6, 2018, Silicon Valley Power held a presentation on the IRP and the community provided feedback through Silicon Valley Power's survey. Thank you to those participated (survey results). On November 27, 2018 the Santa Clara City Council adopted Silicon Valley Power's IRP. For more information, please email info@siliconvalleypower.com.
