

Electric Trucks and Energy Storage Systems (ESS). Yinlong''s LTO batteries have earned a global reputation for being the world''s safest and fastest charging lithium batteries that are best suited for flash charging the buses at bus stops on the route and for high power ESS. With more than 30,000 e- buses operating in cities across China,

Emission-free public transport will move the country closer to achieving climate neutralityElectric buses set to be powered by fastest charging LTO battery in the world, with the buses being charged in less than 20 minutesReplacing one diesel bus with an electric bus is equivalent to reducing harmful emissions from 27 passenger cars driven for one year. and ...

The Yinlong 66160A battery uses lithium titanate as the positive electrode material, which is suitable for high-power applications such as electric vehicles and energy storage systems. Compared to other types of lithium-ion batteries, lithium titanate batteries have better safety performance and are less prone to accidents such as overheating ...

Note: The LTO Yinlong 2.3V 45Ah battery are original brand new cell with clear QR code. For easy assemble, we will weld M6 studs on the cell. Each battery will send 1 pcs copper busbar and 2 pcs nuts. The price to European countries are include custom clearance and tax. Battery Specification Rated Capacity: 45Ah Nominal Voltage: 2.3V Internal Impedance: <=1.0mO ...

YinLong Group produces lithium batteries used in various applications, including electric vehicles and energy storage systems. Energy Storage Systems: The company offers energy storage solutions that integrate with renewable energy sources to provide efficient power management. Electric Vehicles: YinLong Group manufactures electric vehicles ...

Founded in 2008, Yinlong Energy Co.,Ltd is a group company involved in global comprehensive new energy industry, integrated R& D, production and sales of LTO core material, battery, electric motor & controller, charging equipment,intelligent energy storage and pure electric vehicle, as well as power batteries" recycle for cascading utilization.
