

Zambia power storage laboratory

Diploma in Laboratory Diagnostics Full grade 12 Certificate or equivalent with any of the following qualifications: Certificate in Animal Health, Laboratory Science or any other related qualifications; Or Applicants working in a research Institution or a Diagnostic Laboratory with a minimum of two years" work experience are eligible to apply

Our laboratory is accredited in accordance with the recognised international standard ISO/IEC 17025:2017. Situated at Rankin's head office in Lusaka, and operating since the mid 90's, our lab has provided technical support to a wide variety of projects undertaken in the construction industry, including many of the largest infrastructure projects in Zambia.

Dry laboratory chemicals and consumable liquids are often packaged in bulk. Some laboratory commodities have extremely short shelf lives; for example, some control reagents have a shelf life of three months or less. Classifying laboratory commodities is critical to designing, implementing, and managing supply chains for those commodities.

have dedicated laboratory storage space--but these 26 have just 20 percent of the storage space size recommendations. Because most laboratories are in urban settings; the assessment teams noted that these facilities do not have additional space available. They recommended K 2.8 billion or \$601,000 to construct 20 new laboratory storage areas.
